

10

QUESTIONS TO ASK
BEFORE HIRING
A WEBSITE
DESIGNER

1. Who will I work with during this process?

2. What platform will my website be built on? Why?

3. Do you offer hosting and maintenance?

4. Do you custom design your websites or use templates?

5. What if I have a problem down the road, who can I talk to?

6. Will my website be optimized for search engines, speed, mobile devices and differently abled users?

7. How do you help make sure my site is found after it launches?

8. Can I see samples of your work?

9. Will you teach me how to update the site?

10. How long will it take to build my website and when can you begin?

Hammersmith Support (hammersmithsupport.com) is a certified woman-owned technology company specializing in design, development, maintenance and hosting of WordPress websites.
